

astrojax[®] aqua

ages 8+

SAFETY INFORMATION:

The Astrojax AQUA are designed for optimal playing performance and smooth response. In order to enjoy their unique feel over a long time they should be treated with the necessary care. Avoid dropping them or hitting hard surfaces. The vortex in the centre of the AQUA ball can break under excessive strain or when accidentally stepped on. Usually this can be fixed with a small amount of super glue. For training and rebound tricks we recommend using the Astrojax PLUS.

The liquids in the Astrojax AQUA are harmless and meet all safety standards. However, do not swallow the liquid and avoid contact to the skin and eyes in case of leakage. Simply rinse with fresh water if this should happen nevertheless. If a ball is leaking it should no longer be used.

We've taken care to design the AQUA's skin to minimize evaporation as much as possible, but as with any soft flexible plastic skin, there will be some evaporation over time. You can minimize the effect by not leaving AQUAs out in the sun for long periods and storing them in a cool place when not in use. It's a slow process in any case and the Astrojax AQUA continues to work well even as the bubble gets larger.

The general rules for Astrojax also apply for the AQUA:

Never intentionally play such that the balls impact people or animals, and remember to keep a safe distance from people, animals and breakables when playing.

Astrojax are recommended for players ages 8 and up. Keep Astrojax out of reach of young children.
